

Datasheet: VPA00387

Description:	RABBIT ANTI P23
Specificity:	P23
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 μΙ

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	•			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃).
Immunogen	KLH-conjugated synthetic peptide corresponding to aa 45-73 of human P23

External Database Links	UniProt: Q15185 Related reagents Entrez Gene:		
	10728 PTGES3 Related reagents		
Synonyms	P23, TEBP		
Specificity	Rabbit anti Human P23 antibody recognizes prostaglandin E synthase 3, also known as PTGES3, Hsp90 co-chaperone, cPGES, cytosolic prostaglandin E2 synthase, progesterone receptor complex p23, telomerase-binding protein p23 and unactive progesterone receptor, 23 kDa.		
	Rabbit anti Human P23 antibody detects a band of 23 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.		
Western Blotting	Anti P23 detects a band of approximately 23 kDa in Jurkat cell lysate.		
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
