

Datasheet: VPA00389

BATCH NUMBER 160309

Description:	RABBIT ANTI PEROXIREDOXIN 3
Specificity:	PEROXIREDOXIN 3
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	KLH-conjugated synthetic peptide corresponding to aa 229-262 of human peroxiredoxin 3
External Database Links	UniProt: P30048 Related reagents

Entrez Gene:[10935](#) PRDX3 [Related reagents](#)

Synonyms	AOP1
-----------------	------

Specificity	Rabbit anti Human peroxiredoxin 3 antibody recognizes peroxiredoxin 3 also known as antioxidant protein 1 and protein MER5 homolog. Peroxiredoxin 3 is a protein with antioxidant function and is localized in the mitochondrion. The PRDX3 gene shows significant nucleotide sequence similarity to the gene coding for the C22 subunit of Salmonella typhimurium alkylhydroperoxide reductase. Expression of PRDX3 product in <i>E. coli</i> deficient in the C22-subunit gene rescued resistance of the bacteria to alkylhydroperoxide. The human and mouse genes are highly conserved, and they map to the regions syntenic between mouse and human chromosomes. Sequence comparisons with recently cloned mammalian homologues suggest that these genes consist of a family that is responsible for regulation of cellular proliferation, differentiation, and antioxidant functions. Two transcript variants encoding two different isoforms have been found for PRDX3 (provided by RefSeq, Jul 2008). Rabbit anti Human peroxiredoxin 3 antibody detects a band of 23 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
--------------------	---

Western Blotting	Anti peroxiredoxin 3 detects a band of approximately 23 kDa in HEK293 cell lysate
-------------------------	---

Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
-------------------------	--

Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00389 Antibody (10040)
--------------------------------------	--

Regulatory	For research purposes only
-------------------	----------------------------
