

# Datasheet: VPA00414KT

Description:	TAF15 ANTIBODY WITH CONTROL LYSATE				
Specificity:	TAF15				
Format:	Purified				
Product Type:	PrecisionAb Polyclonal				
Isotype:	Polyclonal IgG				
Quantity:	2 Westerns				

### **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Product Form	Purified IgG - liq	uid						
Preparation	20µl Rabbit polyclonal antibody purified by affinity chromatography on Protein A							
Buffer Solution	Phosphate buffered saline							
Preservative Stabilisers	0.09% Sodium A 2% Sucrose	zide (NaN <sub>3</sub> )						
Immunogen	Synthetic peptide	e corresponding to	the N-te	rminal region of human	I TAF15			
External Database Links	UniProt: <u>Q92804</u> <u>F</u> Entrez Gene:	Related reagents						

	8148 TAF15 Related reagents					
Synonyms	RBP56, TAF2N					
Specificity	<b>Rabbit anti Human TAF15 antibody</b> recognizes TAF15, also known as TATA-box binding protein associated factor 15, RBP56/CSMF fusion and Npl3.					
	The TAF15 gene encodes a member of the TET family of RNA-binding proteins. The encoded protein plays a role in RNA polymerase II gene transcription as a component of a distinct subset of multi-subunit transcription initiation factor TFIID complexes. Translocations involving TAF15 play a role in acute leukemia and extra-skeletal myxoid chondrosarcoma, and mutations in TAF15 may play a role in amyotrophic lateral sclerosis. Alternatively spliced transcript variants encoding multiple isoforms have been observed for TAF15 (provided by RefSeq, May 2012).					
	Rabbit anti Human TAF15 antibody detects a band of 83 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.					
Western Blotting	Anti TAF15 detects a band of approximately 83 kDa in Jurkat cell lysate					
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol.</u> For additional information on secondary antibody dilution and exposure time see product web page.					
Lysate Composition	400µg Jurkat lysate lyophilized in RIPA buffer					
Lysate Reconstitution	<ul> <li>If using DDT reconstitute the lyophilized lysate with 190µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.</li> <li>If using BME reconstitute the lyophilized lysate with 180µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 20µl BME.</li> <li>Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.</li> </ul>					
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.					
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.					
Guarantee	As supplied, 12 months from date of despatch					
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories					
Health And Safety Information	Material Safety Datasheet documentation #10045 #10561 available at: Antibody (10045): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10045.pdf</u> Lysate Material (10561): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10561.pdf</u>					
Regulatory	For research purposes only
