

Datasheet: VPA00451

Description:	RABBIT ANTI CDK5
Specificity:	CDK5
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid.

Preparation

Rabbit polyclonal antibody prepared by affinity chromatography on Protein A.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)
2% Sucrose.

Approx. Protein Concentrations

IgG concentration 0.5 mg/ml

Immunogen Synthetic peptide directed towards the N terminal region of human CDK5

Specificity

Rabbit anti Human CDK5 antibody recognizes cyclin-dependent kinase 5 (CDK5), also known as Tau protein kinase II catalytic subunit, cyclin-dependent-like kinase 5, protein kinase CDK5 splicing or serine/threonine-protein kinase PSSALRE. Mutations in the Cdk5 gene are a cause of lissencephaly 7, with cerebellar hypoplasia ([LIS7](#)), a condition characterized by agyria or pachygyria with disruption of cortical lamination ([Magen et al. 2015](#)).

Rabbit anti Human CDK5 antibody detects a band of 30 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting

Anti CDK5 detects a band of approximately 30 kDa in Jurkat cell lysates.

Storage

Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee

12 months from date of despatch

Acknowledgements

PrecisionAb is a trademark of Bio-Rad Laboratories

Health And Safety Information

Material Safety Datasheet documentation #10045 available at: <https://www.bio-rad-antibodies.com/SDS/VPA00451>
Antibody (10045)

Regulatory
