Datasheet: VPA00473

BATCH NUMBER 160712

Description:	RABBIT ANTI PYRUVATE KINASE PKM
Specificity:	PYRUVATE KINASE PKM
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid.

Preparation

Rabbit polyclonal antibody purified by affinity chromatography.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN_3)
2% Sucrose.

Immunogen	Synthetic peptide directed towards the N terminal region of human pyruvate kinase PKM
External Database Links	**UniProt:** P14618 Related reagents **Entrez Gene:** 5315 PKM2 Related reagents
Synonyms	OIP3, PK2, PK3, PKM
Specificity	**Rabbit anti Human pyruvate kinase PKM antibody** recognizes pyruvate kinase PKM, also known as PKM2, OPA-interacting protein 3, epididymis secretory protein Li 30, p58, pyruvate kinase 2/3 or thyroid hormone-binding protein 1. The PKM gene encodes a glycolytic pyruvate kinase that catalyzes the transfer of a phosphoryl group from phosphoenolpyruvate to ADP, generating ATP and pyruvate. This protein has been shown to interact with thyroid hormone and may mediate cellular metabolic effects induced by thyroid hormones. This protein has been found to bind Opa protein, a bacterial outer membrane protein involved in gonococcal adherence to and invasion of human cells, suggesting a role of this protein in bacterial pathogenesis. Several alternatively spliced transcript variants encoding a few distinct isoforms have been reported (provided by RefSeq, May 2011). Rabbit anti Human pyruvate kinase PKM antibody detects a band of 60 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti pyruvate kinase PKM detects a band of approximately 60 kDa in HEK293 cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00473 Antibody (10045)
Regulatory	For research purposes only.
