

Datasheet: VPA00489

Description:	RABBIT ANTI RPL15
Specificity:	RPL15
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid.

Preparation

Rabbit polyclonal antibody purified by affinity chromatography.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)
2% Sucrose.

Approx. Protein Concentrations

IgG concentration 0.5 mg/ml.

Immunogen	Synthetic peptide directed towards the N terminal region of human RPL15
External Database Links	<p>UniProt: P61313 Related reagents</p> <p>Entrez Gene: 6138 RPL15 Related reagents</p>
Synonyms	EC45
Specificity	<p>Rabbit anti Human RPL15 antibody recognizes RPL15 also known as 60S ribosomal protein L15.</p> <p>Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. RPL15 gene encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L15E family of ribosomal proteins. It is located in the cytoplasm. RPL15 shares sequence similarity with the yeast ribosomal protein YL10 gene. Although RPL15 has been referred to as RPL10, its official symbol is RPL15. RPL15 has been shown to be overexpressed in some esophageal tumors compared to normal matched tissues. Mutation of the RPL15 gene has been identified in Diamond-Blackfan anemia 12 (DBA12) an inherited red blood cell aplasia that usually presents in the first year of life (Landowski et al. 2013). Alternate splicing results in multiple transcript variants. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of RPL15 dispersed through the genome (provided by RefSeq, Nov 2011).</p> <p>Rabbit anti Human RPL15 antibody detects a band of 26 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti RPL15 detects a band of approximately 26 kDa in K562 cell lysates.
Storage	<p>Store at -20°C only.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	<p>Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00489</p> <p>Antibody (10045)</p>
Regulatory	For research purposes only.
