

# Datasheet: VPA00525 BATCH NUMBER 160712

Description:	RABBIT ANTI INTEGRIN ALPHA 7
Specificity:	INTEGRIN ALPHA 7
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

## **Product Details**

Applications	This product has been reported to work in the following applications. This informatio derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Product Form	Purified IgG - liquid.							
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.							
Buffer Solution	Phosphate buffered saline.							
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> ).							
Immunogen	KLH conjugated synthetic peptide corresponding to amino acid 1149-1181 of human integrin alpha 7							
External Database Links	UniProt: <u>Q13683</u> Rela	ated reagents

**Specificity** Rabbit anti Human integrin alpha 7 antibody recognizes integrin alpha 7, also known as ITGA7.

The protein encoded by the ITGA7 gene belongs to the integrin alpha chain family. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain. They mediate a wide spectrum of cell-cell and cell-matrix interactions, and thus play a role in cell migration, morphologic development, differentiation, and metastasis. This protein functions as a receptor for the basement membrane protein laminin-1. It is mainly expressed in skeletal and cardiac muscles and may be involved in differentiation and migration processes during myogenesis. Defects in ITGA7 are associated with congenital myopathy (MDCI). Alternatively spliced transcript variants encoding different isoforms have been noted for ITGA7 (provided by RefSeq, Feb 2009).

Rabbit anti Human integrin alpha 7 antibody detects a band of 112 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting	Anti Integrin alpha 7 detects a band of approximately 112 kDa in Raji cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00525 Antibody (10040)
Regulatory	For research purposes only.
