

## Datasheet: VPA00596KT

<b>Description:</b>	INTERLEUKIN-21 ANTIBODY WITH CONTROL LYSATE
<b>Specificity:</b>	IL-21
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Polyclonal
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	2 Westerns

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

**PrecisionAb antibodies have been extensively [validated for the western blot application](#).** The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

#### Target Species

Human

#### Species Cross Reactivity

Reacts with: Mouse

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

#### Product Form

Purified IgG - liquid

#### Preparation

20µl Rabbit polyclonal antibody purified by affinity chromatography

#### Buffer Solution

Phosphate buffered saline

#### Preservative Stabilisers

0.09% Sodium Azide (NaN<sub>3</sub>)  
2% Sucrose

#### Immunogen

Synthetic peptide directed towards the C-terminal region of Human interleukin-21

<b>External Database Links</b>	<b>UniProt:</b> <a href="#">Q9HBE4</a> <a href="#">Related reagents</a>  <b>Entrez Gene:</b> <a href="#">59067</a> IL21 <a href="#">Related reagents</a>
<b>Specificity</b>	<p><b>Rabbit anti Human interleukin-21 antibody</b> recognizes interleukin-21 (IL-21), also known as Za11. IL-21 is a 133 amino acid ~ 17 kDa immunoregulatory cytokine.</p> <p>The IL21 gene encodes a member of the common-gamma chain family of cytokines with immunoregulatory activity. The encoded protein plays a role in both the innate and adaptive immune responses by inducing the differentiation, proliferation and activity of multiple target cells including macrophages, natural killer cells, B cells and cytotoxic T cells. Dysregulation of IL21 plays a role in multiple immune-mediated diseases including lupus, psoriasis and chronic inflammatory diseases. Mutation of the IL21 gene causes Immunodeficiency, common variable, 11 (<a href="#">CVID11</a>), a condition characterized by antibody and the inability to mount an antibody response to antigen leading to recurrent bacterial infections (<a href="#">Salzar et al. 2014</a>). Alternatively spliced transcript variants encoding multiple isoforms have been observed for IL21 (provided by RefSeq, Dec 2011).</p> <p>Rabbit anti Human interleukin-21 antibody detects a band of 17 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
<b>Western Blotting</b>	Anti interleukin-21 detects a band of approximately 17 kDa in NIH/3T3 cell lysates
<b>Instructions For Use</b>	Please refer to the <a href="#">PrecisionAb western blotting protocol</a> . For additional information on secondary antibody dilution and exposure time see product web page.
<b>Lysate Composition</b>	400µg NIH/3T3 lysate lyophilized in RIPA buffer.
<b>Lysate Reconstitution</b>	<ul style="list-style-type: none"> <li>- If using DDT reconstitute the lyophilized lysate with 190µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.</li> <li>- If using BME reconstitute the lyophilized lysate with 180µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 20µl BME.</li> </ul> <p>Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.</p>
<b>Storage</b>	<p>Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.</p> <p>Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.</p>
<b>Guarantee</b>	As supplied, 12 months from date of despatch
