

Datasheet: VPA00614

Description:	RABBIT ANTI BAP
Specificity:	BAP
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml

Immunogen	Synthetic peptide encompassing part of the C terminal region of human BAP
External Database Links	<p>UniProt: Q99623 Related reagents</p> <p>Entrez Gene: 11331 PHB2 Related reagents</p>
Synonyms	BAP, REA
Specificity	<p>Rabbit anti Human BAP antibody recognizes prohibitin-2, also known as B-cell receptor-associated protein BAP37, D-prohibitin, prohibitin-2, REA or repressor of estrogen receptor activity.</p> <p>Prohibitins are assembled into a ring-like structure with 16–20 alternating Phb1 and Phb2 subunits in the inner mitochondrial membrane. The precise molecular function of the PHB complex is not clear but roles as a chaperone for respiration chain proteins, general structuring scaffold for mitochondrial morphology and function, and transcription factor interactions have all been suggested.</p> <p>Rabbit anti Human BAP antibody detects a band of 33 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Rabbit anti BAP detects a band of approximately 33 kDa in HEK293 cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: Antibody (10045): https://www.bio-rad-antibodies.com/uploads/MSDS/10045.pdf
Regulatory	For research purposes only.
