

Datasheet: VPA00622KT

Description:	CDC73 ANTIBODY WITH CONTROL LYSATE		
Specificity:	CDC73		
Format:	Purified		
Product Type:	PrecisionAb Polyclonal		
lsotype:	Polyclonal IgG		
Quantity:	2 Westerns		

Product Details

Applications	This product has been re derived from testing with communications from the information. For general <u>rad-antibodies.com/proto</u>	in our labo e originato protocol re	oratories, rs. Please	peer-reviewed publicat e refer to references in	tions or personal dicated for further

Target Species	Human				
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity a reactivity is derived from personal communication further information.	and workir testing wi	thin our la	aboratories, peer-reviev	wed publications or
Product Form	Purified IgG - liquid				
Preparation	20µl Rabbit polyclonal ar	ntibody pu	rified by a	affinity chromatography	
Buffer Solution	Phosphate buffered salin	ie			
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose				
Immunogen	Synthetic peptide encom	passing p	art of the	middle region of huma	n CDC73

Synonyms	C1orf28, HRPT2
Specificity	Rabbit anti Human CDC73 antibody recognizes parafibromin, also known as also known as Paf1/RNA polymerase II complex component cell division cycle 73, cell division cycle protein 73 homolog, HRPT2 or hyperparathyroidism 2 protein.
	CDC73 gene encodes a tumor suppressor that is involved in transcriptional and post-transcriptional control pathways. The protein is a component of the the PAF protein complex, which associates with the RNA polymerase II subunit POLR2A and with a histone methyltransferase complex. This protein appears to facilitate the association of 3' mRNA processing factors with actively-transcribed chromatin. Mutations in CDC73 have been linked to hyperparathyroidism-jaw tumor syndrome, familial isolated hyperparathyroidism, and parathyroid carcinoma (provided by RefSeq, Jul 2009).
	Rabbit anti Human CDC73 antibody detects a band of 60 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Rabbit anti CDC73 detects a band of approximately 60 kDa in NIH/3T3 cell lysates
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol.</u> For additional information on secondary antibody dilution and exposure time see product web page.
Lysate Composition	400μg NIH/3T3 lysate lyophilized in RIPA buffer.
Lysate Reconstitution	- If using DDT reconstitute the lyophilized lysate with 190µl DI H ₂ O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.
	 If using BME reconstitute the lyophilized lysate with 180μl DI H₂O, add 200μl 2x Laemmli Sample Buffer and 20μl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25μl. For other gel and comb
	formats please refer to the PrecisionAb western blotting protocol.
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
Guarantee	As supplied, 12 months from date of despatch
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
