Datasheet: VPA00626

BATCH NUMBER 161121

Description:	RABBIT ANTI NPEPPS
Specificity:	NPEPPS
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse **N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose

Immunogen	Synthetic peptide encompassing part of the middle region of human NPEPPS
External Database Links	**UniProt:** P55786 Related reagents **Entrez Gene:** 9520 NPEPPS Related reagents
Synonyms	PSA
Specificity	**Rabbit anti Human NPEPPS antibody** recognizes puromycin-sensitive aminopeptidase, also known as cytosol alanyl aminopeptidase, AAP-S or metalloproteinase MP100. The NPEPPS gene encodes the puromycin-sensitive aminopeptidase, a zinc metallopeptidase which hydrolyzes amino acids from the N-terminus of its substrate. The protein has been localized to both the cytoplasm and to cellular membranes. NPEPPS degrades enkaphalins in the brain, and the mouse mhomolog suggests it is involved in proteolytic events regulating the cell cycle (provided by RefSeq, Jul 2008). Rabbit anti Human NPEPPS antibody detects a band of 103 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Rabbit anti NPEPPS detects a band of approximately 103 kDa in NIH/3T3 cell lysates
Storage	Store undiluted at -20^{o}C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00626 Antibody (10045)
Regulatory	For research purposes only
