

Datasheet: VPA00641KT

Description:	PEROXIREDOXIN 5 ANTIBODY WITH CONTROL LYSATE				
Specificity:	PEROXIREDOXIN 5				
Format:	Purified				
Product Type:	PrecisionAb™ Polyclonal				
lsotype:	Polyclonal IgG				
Quantity:	2 Westerns				

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	-			1/1000

PrecisionAb antibodies have been extensively <u>validated for the western blot application</u>. The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human		
Product Form	Purified IgG - liquid		
Preparation	20µl Rabbit polyclonal antibody purified by affinity chromatography		
Buffer Solution	Phosphate buffered saline		
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose		
Immunogen	Synthetic peptide encompassing part of the middle region of human peroxiredoxin 5		
External Database Links	UniProt: <u>P30044</u> <u>Related reagents</u> Entrez Gene: <u>25824</u> PRDX5 <u>Related reagents</u>		
Synonyms	ACR1		
Specificity	Rabbit anti Human peroxiredoxin 5 antibody recognizes peroxiredoxin 5, mitochondrial, also known as Alu co-repressor 1, epididymis secretory protein Li 55, peroxisomal antioxidant enzyme or thioredoxin reductase.		

	PRDX5 gene encodes a member of the peroxiredoxin family of antioxidant enzymes, which reduce hydrogen peroxide and alkyl hydroperoxides. The encoded protein may play an antioxidant protective role in different tissues under normal conditions and during inflammatory processes. This protein interacts with peroxisome receptor 1. The crystal structure of this protein in its reduced form has been resolved to 1.5 angstrom resolution. PRDX5 uses alternate in-frame translation initiation sites to generate mitochondrial or peroxisomal/cytoplasmic forms. Three transcript variants encoding distinct isoforms have been identified for PRDX5 (provided by RefSeq, Jul 2008).
	extensively validated for western blotting using whole cell lysates.
Western Blotting	Rabbit anti peroxiredoxin 5 detects a band of approximately 17 kDa in HeLa cell lysates
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol</u> . For additional information on secondary antibody dilution and exposure time see product web page.
Lysate Composition	400µg HeLa lysate lyophilized in RIPA buffer.
Lysate Reconstitution	 If using DDT reconstitute the lyophilized lysate with 190µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT. If using BME reconstitute the lyophilized lysate with 180µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 20µl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
Guarantee	As supplied, 12 months from date of despatch
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10045 #10561 available at: Antibody (10045): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10045.pdf</u> Lysate Material (10561): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10561.pdf</u>
Regulatory	For research purposes only
