# Datasheet: VPA00652 BATCH NUMBER 161116

Description:	RABBIT ANTI NMDAR1/NR1		
-			
Specificity:	NMDAR1/NR1		
Format:	Purified		
Product Type:	PrecisionAb Polyclonal		
Isotype:	Polyclonal IgG		
Quantity:	100 µl		

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Product Form	Purified IgG - liquid							
Preparation	Rabbit polyclonal antibody purified by affinity chromatography							
Buffer Solution	Phosphate buffered saline							
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose							
Immunogen	Synthetic peptide encom	npassing p	art of the	C terminal region of h	uman NMDAR1			
External Database Links	UniProt: <u>Q05586</u> <u>Related</u>	<u>reagents</u>						

#### Entrez Gene:

2902 GRIN1 Related reagents

Synonyms	NMDAR1					
Specificity	<b>Rabbit anti Human NMDAR1/NR1 antibody</b> recognizes the glutamate receptor ionotropic, NMDA1, also known as N-methyl-D-aspartate (NMDA) receptor channel, subunit zeta-1, N-methyl-D-aspartate receptor subunit NR1, NDMDAR1 or GluN1.					
	The protein encoded by GRIN1 gene is a critical subunit of N-methyl-D-aspartate receptors, members of the glutamate receptor channel superfamily which are heteromeric protein complexes with multiple subunits arranged to form a ligand-gated ion channel. These subunits play a key role in the plasticity of synapses, which is believed to underlie memory and learning. Cell-specific factors are thought to control expression of different isoforms, possibly contributing to the functional diversity of the subunits. Alternatively spliced transcript variants have been described (provided by RefSeq, Jul 2008).					
	Rabbit anti Human NMDAR1/NR1 antibody detects a band of 120 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.					
Western Blotting	Rabbit anti NMDAR1/NR1 detects a band of approximately 120 kDa in Raji cell lysates					
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.					
Guarantee	12 months from date of despatch					
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories					
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00652 Antibody (10045)					
Regulatory	For research purposes only
