

Datasheet: VPA00667

Description:	RABBIT ANTI GLUTAMATE DEHYDROGENASE 1
Specificity:	GLUTAMATE DEHYDROGENASE 1
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide 2% Sucrose
Immunogen	Synthetic peptide encompassing part of the N terminal region of human glutamate dehydrogenase 1

External Database Links	UniProt: P00367 Related reagents
	Entrez Gene: 2746 GLUD1 Related reagents
Synonyms	GLUD
Specificity	<p>Rabbit anti Human glutamate dehydrogenase 1 antibody recognizes glutamate dehydrogenase 1, mitochondrial, also known as GDH 1, glutamate dehydrogenase (NAD(P)+), glutamate dehydrogenase 1, mitochondrial.</p> <p>The GLUD1 gene encodes glutamate dehydrogenase protein; a mitochondrial matrix enzyme that catalyzes the oxidative deamination of glutamate to alpha-ketoglutarate and ammonia. This enzyme has an important role in regulating amino acid induced insulin secretion and activating mutations in GLUD1 are a common cause of congenital hyperinsulinism. This enzyme is allosterically activated by ADP and inhibited by GTP and ATP. The related glutamate dehydrogenase 2 gene on the human X-chromosome originated from GLUD1 via retrotransposition and encodes a soluble form of glutamate dehydrogenase. Multiple pseudogenes of GLUD1 are present in humans (provided by RefSeq, Sep 2009).</p> <p>Rabbit anti Human glutamate dehydrogenase antibody detects a band of 52 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Rabbit anti glutamate dehydrogenase 1 detects a band of approximately 52 kDa in HepG2 cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00667 Antibody (10045)
Regulatory	For research purposes only.
