

Datasheet: VPA00690

| | |
|----------------------|------------------------|
| Description: | RABBIT ANTI FILAMIN-B |
| Specificity: | FILAMIN-B |
| Format: | Purified |
| Product Type: | PrecisionAb Polyclonal |
| Isotype: | Polyclonal IgG |
| Quantity: | 100 µl |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography on Protein A.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide.

Immunogen

KLH conjugated synthetic peptide encompassing part of human filamin-B (amino acids 163 - 196)

| External Database Links | UniProt: O75369 Related reagents Entrez Gene: 2317 FLNB Related reagents |
| Synonyms | FLN1L, FLN3, TABP, TAP |
| Specificity | <p>Rabbit anti Human filamin-B antibody recognizes filamin-B, also known as ABP-280 homolog, actin binding protein 278, actin-binding-like protein, beta-filamin or SCT.</p> <p>The FLNB gene encodes a member of the filamin family. The encoded protein interacts with glycoprotein Ib alpha as part of the process to repair vascular injuries. The platelet glycoprotein Ib complex includes glycoprotein Ib alpha, and it binds the actin cytoskeleton. Mutations in FLNB have been found in several conditions: atelosteogenesis type 1 and type 3; boomerang dysplasia; autosomal dominant Larsen syndrome; and spondylocarpotarsal synostosis syndrome. Multiple alternatively spliced transcript variants that encode different protein isoforms have been described for FLNB (provided by RefSeq, Nov 2009).</p> <p>Rabbit anti Human filamin-B antibody detects a band of 280 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p> |
| Western Blotting | Rabbit anti filamin-B detects a band of approximately 280 kDa in HeLa cell lysates. |
| Storage | Store undiluted at -20°C, avoiding repeated freeze thaw cycles. |
| Guarantee | 12 months from date of despatch. |
| Acknowledgements | PrecisionAb is a trademark of Bio-Rad Laboratories. |
