

Datasheet: VPA00747

BATCH NUMBER 170515

Description:	RABBIT ANTI MICB
Specificity:	MICB
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 μΙ

### **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="https://www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	•			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click <a href="here">here</a> to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human	
Product Form	Purified IgG - liquid	
Preparation	Rabbit polyclonal antibody purified by affinity chromatography on Protein A	
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> )	
Immunogen	KLH conjugated synthetic peptide between amino acids 65-98 of human MICB	
External Database Links	UniProt:  Q29980 Related reagents	

#### **Entrez Gene:**

4277 MICB Related reagents

Synonyms	PERB11.2
Specificity	Rabbit anti Human MICB antibody recognizes MHC class I polypeptide-related sequence B.
	MICB encodes a heavily glycosylated protein which is a ligand for the NKG2D type II receptor. Binding of the ligand activates the cytolytic response of natural killer (NK) cells, CD8 alphabeta T cells, and gammadelta T cells which express the receptor. This protein is stress-induced and is similar to MHC class I molecules; however, it does not associate with beta-2-microglobulin or bind peptides (provided by RefSeq, Jul 2008).
	Rabbit anti Human MICB antibody detects a band of 43 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti MICB antibody recognizes a band of approximately 43 kDa in Jurkat cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VPA00747">https://www.bio-rad-antibodies.com/SDS/VPA00747</a> Antibody (10040)
Regulatory	For research purposes only
