

Datasheet: VPA00754

Description:	RABBIT ANTI SLC25A6
Specificity:	SLC25A6
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 μΙ

## **Product Details**

## **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.biorad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	•			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography on immunogen.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> ) 2% Sucrose
Immunogen	KLH conjugated synthetic peptide corresponding to a portion of the middle region of human SLC25A6
External Database	UniProt:

**Entrez Gene:** 

Synonyms	ANT3			
Specificity	Rabbit anti Human SLC25A6 antibody recognzies SLC25A6, also known as ADT3, ADP/ATP translocase 3 or ADP/ATP carrier protein isoform T2.			
	This gene is a member of the mitochondrial carrier subfamily of solute carrier protein genes. The product of this gene functions as a gated pore that translocates ADP from the cytoplasm into the mitochondrial matrix and ATP from the mitochondrial matrix into the cytoplasm. The protein is implicated in the function of the permability transition pore complex (PTPC), which regulates the release of mitochondrial products that induce apoptosis. The human genome contains several non-transcribed pseudogenes of this gene (provided by RefSeq, Jun 2013).			
	Rabbit anti Human SLC25A6 antibody detects a band of 33 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.			
Western Blotting	Anti SLC25A6 antibody recognizes a band of approximately 33 kDa in HEK293 cell lysates.			
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.			
Guarantee	12 months from date of despatch.			
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.			
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VPA00754">https://www.bio-rad-antibodies.com/SDS/VPA00754</a> Antibody (10045)			
Regulatory	For research purposes only.
