

Datasheet: VPA00789

Description:	RABBIT ANTI TSPO
Specificity:	TSPO
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography on immunogen.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 2% Sucrose
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml.

Immunogen	Synthetic peptide directed towards the C terminal region of human TSPO
External Database Links	<p>UniProt: P30536 Related reagents</p> <p>Entrez Gene: 706 TSPO Related reagents</p>
Synonyms	BZRP, MBR
Specificity	<p>Rabbit anti Human TSPO antibody recognizes TSPO, also known as translocator protein, benzodiazepine peripheral binding site, mitochondrial benzodiazepine receptor or peripheral-type benzodiazepine receptor.</p> <p>Present mainly in the mitochondrial compartment of peripheral tissues, the protein encoded by TSPO interacts with some benzodiazepines and has different affinities than its endogenous counterpart. The protein is a key factor in the flow of cholesterol into mitochondria to permit the initiation of steroid hormone synthesis. Alternatively spliced transcript variants have been reported; one of the variants lacks an internal exon and is considered non-coding, and the other variants encode the same protein (provided by RefSeq, Feb 2012).</p> <p>Rabbit anti Human TSPO antibody detects a band of 18 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti TSPO antibody recognizes a band of approximately 18 kDa in C2C12 cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00789 Antibody (10045)
Regulatory	For research purposes only.
