**Specificity**      **Rabbit anti Human superoxide dismutase (Mn)** recognizes superoxide dismutase (Mn), also known as superoxide dismutase 2, SOD2, Mn superoxide dismutase, indophenoxidase B,

manganese-containing superoxide dismutase or mangano-superoxide dismutase.

This gene is a member of the iron/manganese superoxide dismutase family. It encodes a mitochondrial protein that forms a homotetramer and binds one manganese ion per subunit. This protein binds to the superoxide byproducts of oxidative phosphorylation and converts them to hydrogen peroxide and diatomic oxygen. Mutations in this gene have been associated with idiopathic cardiomyopathy (IDC), premature aging, sporadic motor neuron disease, and cancer. Alternative splicing of this gene results in multiple transcript variants. A related pseudogene has been identified on chromosome 1 (provided by RefSeq, Apr 2016).

Rabbit anti Human superoxide dismutase (Mn) detects a band at 22 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

---

**Western Blotting** Anti superoxide dismutase (Mn) antibody recognizes a band of approximately 22 kDa in HepG2 cell lysates

---

**Instructions For Use** Please refer to the [PrecisionAb western blotting protocol](#). For additional information on secondary antibody dilution and exposure time see product web page.

---

**Lysate Composition** 400µg HepG2 lysate lyophilized in RIPA buffer

---

**Lysate Reconstitution** - If using DDT reconstitute the lyophilized lysate with 190µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.  
- If using BME reconstitute the lyophilized lysate with 180µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 20µl BME.  
Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.

---

**Storage** Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
