

Datasheet: VPA00896

Description:	RABBIT ANTI OPA1
Specificity:	OPA1
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography on immunogen

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide
<50% Glycerol

Immunogen

Recombinant protein of human OPA1

External Database Links	UniProt: O60313 Related reagents Entrez Gene: 4976 OPA1 Related reagents
Synonyms	KIAA0567
Specificity	<p>Rabbit anti Human OPA1 antibody recognizes OPA1, also known as dynamin-like 120 kDa protein-mitochondrial, dynamin-like guanosine triphosphatase, mitochondrial dynamin-like GTPase, NTG and optic atrophy protein 1.</p> <p>OPA1 product is a nuclear-encoded mitochondrial protein with similarity to dynamin-related GTPases. It is a component of the mitochondrial network. Mutations in OPA1 have been associated with optic atrophy type 1, which is a dominantly inherited optic neuropathy resulting in progressive loss of visual acuity, leading in many cases to legal blindness. Multiple transcript variants encoding different isoforms have been found for OPA1 (provided by RefSeq, Mar 2009).</p> <p>Rabbit anti Human OPA1 antibody detects bands of 80-100 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti OPA1 antibody recognizes a band of approximately 80-100 kDa in LNCaP cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #20359 available at: Antibody (20359): https://www.bio-rad-antibodies.com/uploads/MSDS/20359.pdf
Regulatory	For research purposes only
