

Datasheet: VPA00924

Description:	RABBIT ANTI UBE2B
Specificity:	UBE2B
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.

Target Species	Human							
Product Form	Purified IgG - liquid							
Preparation	Rabbit polyclonal antibody purified by affinity chromatography on immunogen							
Buffer Solution	Phosphate buffered saline							
Preservative	0.09% Sodium Azide							
Stabilisers	<50% Glycerol							
	····							
Immunogen	Recombinant protein of human UBE2B							
External Database Links	UniProt: <u>P63146</u> <u>Related r</u>	reagents						

Entrez Gene:

	7320 UBE2B Related reagents				
Synonyms	RAD6B				
Specificity	Rabbit anti Human UBE2B antibody recognizes the ubiquitin-conjugating enzyme E2 also known as E2 protein, ubiquitin-conjugating enzyme E2-17 kDa, ubiquitin-conjugatin enzyme E2B (RAD6 homolog), or ubiquitin-protein ligase B.				
	The modification of proteins with ubiquitin is an important cellular mechanism for targeting abnormal or short-lived proteins for degradation. Ubiquitination involves at least three classes of enzymes: ubiquitin-activating enzymes, or E1s, ubiquitin-conjugating enzymes, or E2s, and ubiquitin-protein ligases, or E3s. UBE2B encodes a member of the E2 ubiquitin-conjugating enzyme family. This enzyme is required for post-replicative DNA damage repair. Its protein sequence is 100% identical to the mouse, rat, and rabbit homologs, which indicates that this enzyme is highly conserved in eukaryotic evolution (provided by RefSeq, Jul 2008).				
	Rabbit anti Human UBE2B antibody detects a band of 17 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.				
Western Blotting	Anti UBE2B antibody recognizes a band of approximately 17 kDa in HeLa cell lysates				
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles				
Guarantee	12 months from date of despatch				
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories				
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/VPA00924 10049				
Regulatory	For research purposes only
